

Cover Letter

Dear Hiring Team,

My name is Iurii Basov, and I am interested in your Frontend Developer (Vue.js) contract opportunity. I bring 10+ years of IT experience, including product-focused engineering and technical leadership across complex environments.

My core hard skills include JavaScript (ES6+), Vue.js, React, CSS/SCSS, responsive design, reusable component architecture, frontend performance optimization, cross-browser compatibility, API integration, Webpack-based build workflows, Git collaboration, and code quality practices including reviews and team mentoring.

I work as a playing coach: I remain hands-on with implementation while helping teams keep high standards for scalability, maintainability, and delivery speed. I collaborate effectively with UI/UX designers and backend engineers to turn wireframes and requirements into reliable user-facing products.

I would be glad to discuss how I can contribute to your remote frontend initiatives.

Best regards,

Iurii Basov
