LinkedIn CV (Filtered to 8 Years Relevant Experience)

Target Role: Artificial Intelligence Engineer / Senior Product Engineer - AI

Contact: WhatsApp +84822510931 | Telegram @novator_24 | Email basov.yo@gmail.com

Profile

Senior engineer with 8 years of relevant experience (2017-2025) building scalable product platforms across backend, data, and AI-enabled workflows. Strong fit for roles requiring end-to-end product ownership, modern TypeScript/Python stack, and resilient cloud architecture.

Relevant Hard Skills

- TypeScript/JavaScript with modern frontend engineering (Vue.js)
- Python backend services and API integration
- PostgreSQL and relational data design
- AI agent and LLM integration patterns in product workflows
- Cloud-native reliability (AWS), observability, and secure delivery
- Clean architecture, testing strategy, CI/CD, and DevEx enablement
- AI-assisted engineering practices with responsible tool usage

Experience (8 Years Total)

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025) | 5 years
 - Owned end-to-end platform delivery and architecture decisions for AI/data initiatives with enterprise reliability requirements.
 - Led cross-functional implementation and continuous improvement loops for product and engineering effectiveness.
- Senior Data/Backend Engineer — Consulting Projects (Apr 2017 - Mar 2020) | 3 years
 - Delivered production backend/data systems with strong integration, automation, and scalability focus.
 - Improved delivery speed and system robustness via testing, monitoring, and architecture refinement.

Vacancy Fit

- Strong match for DGH AI Engineer role: full lifecycle ownership, TypeScript/Python skill mix, AI-product integration focus, and practical cloud-native engineering discipline.
