Professional Summary

My name is Iurii Basov. I am actively considering Data Architect and Tech Lead opportunities, and I am also open to Senior Software Developer roles in financial services. I have 10+ years in IT, started as a Java/Scala developer, moved into ML and platform engineering, and progressed to leadership in enterprise delivery environments. I work as a playing coach and full-stack data specialist, combining hands-on coding with architecture ownership and production accountability.

Core Technology Stack (Matched to Vacancy)

- Java (object-oriented enterprise development)
- Spring Framework
- REST API development
- Oracle database design and data modeling
- Large-scale data repository operations
- XML schemas and tax data architecture workflows
- Enterprise tax form collection and reporting systems
- Business-to-technical requirements translation
- End-to-end project planning and delivery ownership
- Production incident analysis and resolution
- Scalability and resource bottleneck optimization
- Event-based processing architecture migration
- Quality-focused engineering and technical leadership
- Financial services domain experience
- Hybrid team collaboration and documentation discipline

Relevant Experience

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025)
 - Owned mission-critical platform initiatives with strong requirements on reliability, regulatory alignment, and scalability.

- Led technical planning from business requirements to production rollout, including incident remediation and optimization.
- Software Developer / Lead MLOps & Data Engineer — Multi-domain Projects (Apr 2013 - Aug 2025)
 - Built and maintained enterprise-grade backend/data systems in finance-adjacent domains with strict quality expectations.
 - Improved processing stability and throughput through architecture refactoring and data workflow optimization.

Working Style

- Strong ownership from requirement decomposition to delivery and operations.
- Detail-oriented, quality-focused engineering mindset for regulated contexts.
- Comfortable leading cross-functional initiatives in hybrid enterprise teams.

Education

Moscow State University — MS, Calculus Mathematics (2001 - 2006)
