Profile

Senior AI/ML-focused data professional with 8 years of relevant experience (2017-2025) in product analytics, machine learning, and production decision systems. Strong fit for roles requiring end-to-end data ownership, experimentation rigor, and business-impact-driven execution.

Relevant Hard Skills

- Production ML and GenAI workflows (from problem framing to deployment)
- Strong SQL, Python-based analysis, and data modeling/dimensional design
- Experiment design and analysis (A/B, multivariate, statistical validation)
- KPI framework design, business metric alignment, and automated reporting
- Recommendation/AI systems and practical model iteration in product settings
- Data pipeline collaboration (Airflow class tooling) and cloud analytics mindset

Experience (8 Years Total)

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025) | 5 years
 - Owned AI/data platform delivery and improved decision quality through robust data and experimentation practices.
 - Partnered with business and product stakeholders on KPI design and impact measurement.
- Senior Data/Backend Engineer — Consulting Projects (Apr 2017 - Mar 2020) | 3 years
 - Built analytics and ML-enabled systems for complex domains with measurable operational and product outcomes.
 - Improved model reliability and data quality through iterative analysis and engineering refinement.

Vacancy Fit

- Strong match for talabat AI hub mission: end-to-end data value chain ownership, practical ML/GenAI in production, and experiment-driven product improvement.
