

Iurii Basov

Target Role: Senior Node.js Developer / Technical Lead

Location: Open for relocation (including Spain) | WhatsApp: +84822510931 | Telegram: @novator_24 | Email: basov.yo@gmail.com | LinkedIn: linkedin.com/in/basovi

Professional Summary

My name is Iurii Basov. I am actively considering opportunities for Data Architect and Tech Lead roles, and I am open to Senior Node.js leadership tracks. I have 10+ years in IT: I started as a Java/Scala developer, then moved into ML and platform engineering, and later progressed to leadership roles in enterprise environments. I work as a playing coach and full-stack data specialist, combining hands-on engineering with architecture ownership, team mentoring, and business-oriented delivery.

Core Technology Stack (Matched to Vacancy)

- Node.js
- NestJS
- TypeScript
- JavaScript (ECMAScript 6)
- REST API design and implementation
- WebSockets implementation
- MySQL (commercial databases)
- RabbitMQ
- Redis
- Git version control
- 3rd-party API integrations
- Scalable high-performance architecture design
- Troubleshooting and root-cause analysis
- Coding standards and engineering best practices
- Technical leadership and mentoring
- Stakeholder communication and delivery planning
- Fintech/iGaming adjacent domain experience

Relevant Experience

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025)

- Led technical initiatives with a balanced focus on architecture decisions, delivery quality, and production stability.
- Acted as a player-coach, coordinating engineering teams, establishing standards, and mentoring developers.
- Software Developer / Lead MLOps & Data Engineer — Multi-domain Projects (Apr 2013 - Aug 2025)
 - Designed and supported high-load systems for finance, logistics, and digital products with strong reliability requirements.
 - Integrated external services, improved throughput/latency, and maintained production-grade development workflows.

Leadership & Delivery Style

- Hands-on leadership split between coding and architecture ownership.
- Strong in cross-team technical communication and stakeholder alignment.
- Focus on maintainable systems, scalable design, and measurable delivery cadence.

Education

Moscow State University — MS, Calculus Mathematics (2001 - 2006)
