Professional Summary

My name is Iurii Basov. I am actively considering Data Architect and Tech Lead opportunities, and I am also open to Fullstack Engineer roles where product ownership and delivery speed matter. I have 10+ years in IT: I started as a Java/Scala developer, moved into ML and platform engineering, and later led platform initiatives in enterprise environments. I work as a playing coach and full-stack data specialist, combining hands-on implementation with architecture and delivery leadership.

Core Technology Stack (Matched to Vacancy)

- Golang (server-side development)
- react.js (frontend development)
- AWS services and cloud infrastructure
- RESTful API design and implementation
- Data modeling, database design, and optimization
- UI/UX collaboration with designers
- Agile delivery (sprint planning, retrospectives, daily standups)
- Code reviews and engineering feedback practices
- Troubleshooting and debugging across lifecycle
- Reusable and testable code practices
- Cross-functional collaboration (Product Owner + engineering)
- English communication for distributed Agile teams (B1+)

Relevant Experience

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025)
 - Led engineering initiatives that required system design, cross-functional execution, and production quality standards.
 - Improved delivery reliability and team collaboration practices in high-impact product environments.

- Software Developer / Lead MLOps & Data Engineer — Multi-domain Projects (Apr 2013 - Aug 2025)
 - Built and maintained scalable backend/data solutions integrated with user-facing systems and APIs.
 - Delivered measurable improvements in performance, maintainability, and rollout speed across multiple products.

Working Style

- Strong fullstack ownership mindset: design, implementation, testing, and release support.
- Comfortable in Agile rituals and product-oriented decision making.
- Collaborative approach with Product Owner, UI/UX, and engineers.

Education

Moscow State University — MS, Calculus Mathematics (2001 - 2006)
