Professional Summary

My name is Iurii Basov. I am actively considering Data Architect and Tech Lead opportunities, and I am also open to Site Reliability Engineer roles where reliability, automation, and delivery speed are core goals. I have 10+ years in IT, starting as a Java/Scala developer, then moving into ML/platform engineering, and later leading mission-critical platform initiatives. I work as a playing coach: hands-on in operations and engineering while mentoring teams and improving system resilience.

Core Technology Stack (Matched to Vacancy)

- aWS
- Kubernetes
- MongoDB
- PostgreSQL
- RabbitMQ
- Redis
- Ansible
- Terraform
- Grafana
- Prometheus
- Sentry
- Loki
- Jenkins
- GitHub Actions
- Linux troubleshooting (networking, file systems)
- Infrastructure automation (Bash, Python)
- Docker and container platforms
- Incident response and alert management
- High availability and resilience engineering
- Infrastructure and service migration
- Dynamic environment development

- SQL/NoSQL administration
- Documentation and DevOps workflows

Relevant Experience

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025)
 - Led platform reliability and delivery initiatives with emphasis on uptime, performance, and secure production operations.
 - Improved incident handling workflows, observability, and engineering coordination in high-load environments.
- Software Developer / Lead MLOps & Data Engineer — Multi-domain Projects (Apr 2013 - Aug 2025)
 - Built and operated cloud-native data/back-end infrastructure for finance, logistics, and e-commerce systems.
 - Automated manual processes, supported service migrations, and improved operational resilience and deployment speed.

Working Style

- Strong SRE mindset: prevent incidents, shorten MTTR, and improve system reliability continuously.
- Team-first collaborator: supports developers during incidents and teaches operational best practices.
- Prioritizes automation and clear documentation for sustainable engineering velocity.

Education

Moscow State University — MS, Calculus Mathematics (2001 - 2006)
