LinkedIn CV (Filtered to 8 Years Relevant Experience)

Target Role: Remote Fullstack Engineer (Go/React)

Contact: WhatsApp +84822510931 | Telegram @novator_24 | Email basov.yo@gmail.com

Profile

Fullstack/product-focused engineer with 8 years of relevant experience (2017-2025) building scalable systems and delivering features in Agile teams.) Strong fit for Go/React roles requiring backend architecture, frontend delivery, API-first design, and close collaboration with product and design stakeholders.

Relevant Hard Skills

- Backend engineering mindset with Go-oriented service design
- Frontend delivery with React.js and UX collaboration
- RESTful APIs, data modeling, and database optimization
- AWS integration and cloud reliability considerations
- Testing discipline, debugging, and code review practices
- Agile execution: standups, planning, retros, cross-team communication

Experience (8 Years Total)

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025) | 5 years
 - Owned technical delivery and architecture decisions for platform initiatives with strong quality requirements.
 - Improved team throughput and release quality via structured engineering workflows.
- Senior Data/Backend Engineer — Consulting Projects (Apr 2017 - Mar 2020) | 3 years
 - Implemented production services and integrations with high reliability and maintainability expectations.
 - Contributed to iterative feature delivery and product evolution in cross-functional setups.

Vacancy Fit

- Strong match for fram^ Fullstack role: Go/React alignment, API and database depth, AWS integration focus, and practical Agile team execution.
