Professional Summary

My name is Iurii Basov. I am actively considering opportunities for Data Architect, Tech Lead, and Senior Software Engineer roles. I have 10+ years in IT: I started as a Java/Scala developer, then moved into ML and platform engineering, and later progressed to leadership roles in enterprise environments. I work as a playing coach and full-stack specialist, combining hands-on implementation with architecture ownership and business-oriented delivery.

Core Technology Stack (Matched to Vacancy)

- Senior Software Engineering (end-to-end ownership)
- System design and scalable architecture
- Backend API development and integration
- Modern web application development
- Relational database design and SQL
- Clean code, refactoring, and maintainability practices
- Unit and integration testing
- CI/CD and DevOps collaboration
- Code review and engineering standards
- Performance optimization and troubleshooting
- Cross-functional collaboration with product stakeholders
- Agile delivery and iterative product development

Relevant Experience

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025)
 - Led engineering initiatives with focus on scalable architecture, reliability, and delivery quality.
 - Mentored teams, improved SDLC practices, and drove cross-functional technical execution.
- Software Developer / Lead MLOps & Data Engineer — Multi-domain Projects (Apr 2013 - Aug 2025)

- Built and maintained production systems for finance, logistics, and digital products.
- Delivered measurable improvements in performance, maintainability, and operational stability.

Working Style

- Player-coach approach: hands-on coding plus technical leadership.
- Strong in converting product needs into pragmatic engineering solutions.
- Focus on long-term quality while delivering short-term business value.

Education

Moscow State University — MS, Calculus Mathematics (2001 - 2006)
