Profile

Senior engineer with 8 years of relevant experience (2017-2025) delivering scalable software systems in production. Strong fit for Senior Software Engineer roles requiring end-to-end ownership, architecture skills, and high execution standards.

Relevant Hard Skills

- Scalable backend and platform engineering
- System design, integration patterns, and API delivery
- Database modelling and query optimization
- Testing strategy: unit and integration coverage
- CI/CD, DevOps collaboration, and production support
- Code quality, code reviews, and mentoring

Experience (8 Years Total)

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025) | 5 years
 - Owned architecture and delivery outcomes for platform initiatives with high quality and reliability requirements.
 - Led engineers and coordinated product/engineering execution in complex environments.
- Senior Data/Backend Engineer — Consulting Projects (Apr 2017 - Mar 2020) | 3 years
 - Implemented production services and integrations across multiple domains.
 - Improved performance, maintainability, and delivery speed through pragmatic engineering practices.

Vacancy Fit

- Strong match for Senior Software Engineer role: full lifecycle ownership, architecture-first thinking, and reliable delivery in fast-moving teams.
