Professional Summary

I am Iurii Basov, a senior engineer and technical lead with 10+ years in IT. I started as a Java/Scala developer, moved into ML and data platform engineering, and progressed to leadership roles in enterprise environments including Sberbank. I work as a playing coach: hands-on in implementation while driving architecture quality, mentoring teams, and aligning technical delivery with business outcomes.

Core Technology Stack (Matched to Vacancy)

- Python (Advanced)
- PySpark
- SQL (Advanced)
- Data Engineering: ingestion, transformation, modelling, automation, data quality checks
- APIs: REST, SOAP, gRPC, authentication and authorization
- Application Architecture and Design Patterns
- Test-Driven Development (TDD)
- CI/CD and DevOps Processes
- Cloud Platforms: AWS and Azure
- Databricks
- Palantir Foundry
- Dash (Python framework)
- JavaScript
- React
- OpenFin / FDC3
- Quant Analytics: Monte Carlo, pricing, risk, factor modelling
- Portfolio Management: allocation, rebalancing, attribution
- Market Data and Investment Platform Integration
- Agile Delivery and Stakeholder Communication

Relevant Experience

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025)

- Led scalable platform and analytics initiatives with strong focus on reliability, maintainability, and delivery discipline.
- Coordinated technical roadmaps, challenged requirements, and mentored engineers while staying hands-on in critical implementation paths.
- Software Developer / Lead MLOps & Data Engineer — Multi-domain Projects (Apr 2013 - Aug 2025)
 - Designed and operated data-intensive solutions for finance, logistics, and digital products using cloud-native and pipeline-centric patterns.
 - Implemented API integrations and quality automation, improving data readiness and decision support for business stakeholders.

Education

Moscow State University — MS, Calculus Mathematics (2001 - 2006)
