LinkedIn CV (Filtered to 8 Years Relevant Experience)

Target Role: Senior Quant Software Developer

Contact: WhatsApp +84822510931 | Telegram @novator_24 | Email basov.yo@gmail.com

Profile

Senior data/platform engineer with 8 years of relevant experience (2017-2025) in Python/SQL solutions, cloud data platforms, and production-grade API integration. Strong fit for quant-focused delivery requiring robust engineering practices, domain communication, and measurable business impact.

Relevant Hard Skills

- Python, PySpark, SQL for scalable analytics and data processing
- Data pipelines: ingestion, curation, modelling, automation, quality checks
- REST/SOAP/gRPC API patterns with auth and integration controls
- TDD, CI/CD, DevOps, architecture and design pattern implementation
- AWS/Azure + Databricks + Palantir Foundry ecosystem
- Dash/JavaScript/React for analytical interfaces and dashboarding
- Quant-supporting workflows: risk, Monte Carlo, portfolio processes

Experience (8 Years Total)

- Lead Software Engineer / ML Platform Lead — Sberbank (Apr 2020 - Mar 2025) | 5 years
 - Owned platform reliability and delivery outcomes, improving engineering quality and cross-team execution.
 - Led solution design, backlog prioritization, and technical reporting across business and engineering stakeholders.
- Senior Data/Backend Engineer — Consulting Projects (Apr 2017 - Mar 2020) | 3 years
 - Built production data and backend services for finance-adjacent workloads with strict quality and timing expectations.
 - Improved analytical throughput, incident response, and platform supportability through automation and observability.

Vacancy Fit

- Strong fit for Luxoft Senior Quant Software Developer: Python/SQL depth, data engineering and API integration, cloud platforms, and quant-aligned delivery with Agile collaboration.
